***Allowable Subject Matter***

The following is a statement of reasons for the indication of allowable subject matter: Claims 28, 39 and 50 are allowable for the phrase "based on a plurality of previously-determined zero-flow calibration values" with remaining claim limitation. Full weight was given to the preamble of claim 50, as the body of the claim refers to "the sensor" (line 4) and "the flowmeter" (line 5) which link the body of the claim to the preamble. Thus, the "transmitter" (line 1) is substantively linked to the "flowmeter that includes...flowtube" (lines 1-3), and the phrase "for use" was not treated as a statement of intended use only.
